Thank you so much for this information, Rob. I'm gathering info on the topics below and will get back with you early next week about any more specifics.

Have a lovely weekend!
~Marissa

Hi Marissa

A few specific talking points / agenda items follow

- * Briefing on status of proposed Chuitna mine permit and top issues of concern
- * Presentation of Native Village of Tyonek - IRA Council Resolution of opposition
- * Review of EPA Authority and roles in the permitting process
- * 404Q - Process and criteria overview - Discussion
- * 404C - Process and criteria overview - Discussion
- * EPA Technical Assistance and Resources available to Native Village of Tyonek and NARF
- * Discussion on potential replication of EPA written "Assessment of Potential Mining Impacts on Salmon"

Ecosystems of Bristol Bay, Alaska regarding Pebble Mine. Is it possible for a similar assessment to be done for the Chuitna Watershed and Upper Cook Inlet with regards to the proposed Chuitna mine?

Rob,

Thank you for your time yesterday. We are looking forward to your visit.

As I mentioned, there are a few follow up questions I have in order to prepare for your visit on October 3 from 11:15-12:00.

Please note that you will need to be at EPA by 10:50 in order to have everyone go through security and be escorted to the meeting room.

- 1) Please send me a list of the participants attending on the 3rd- this information will be required to go through security and getting it to security earlier will hasten the process.
- 2) Please also send me a list of specific questions you may ask during the meeting. Since this meeting is only 45 minutes, having the information beforehand will greatly facilitate the conversation.

I will follow up with you on any directions you need and other meeting information as soon as I am aware. Please don't hesitate to contact me if you have any questions or concerns.

Thank you!
~Marissa
